## Bearing Age Fruit Trees

### FOR YOUR BACK YARD

By this we mean trees which we have allowed to grow in our nurseries until they are old enough and big enough to bear fruit. Each of these trees has been especially selected and cared for during the years it has grown in our nurseries.

The value of these trees to you lies in the fact that they will fruit the first year they are planted. You start picking the fruits of your labor at once instead of waiting for years. We have done the waiting for you. We have cared for the trees in the nursery until they are ready to care for your fruit needs. They will bear this year and keep on growing and bearing for years to come.
